

SAINT-PIERRE ET MIQUELON, « THE FOX » OF 1952.
THE FIRST TWO STAMPS ISSUED FOR AIRMAIL RATES.

This subject is perfect to be presented in traditional "1 frame" Class.

It has been translated in english for the first time early this year (2020)

All the pieces produced by the designer and engraver are presented in this study.

An important topic for SPM because it shows the **first two stamps issued with values corresponding to the first air rates.**

Few very rare covers are shown including the **unique « paquebot » cachet** at the last page.

variety doesn't exist for these two stamps.

It is the first competitive exhibit in the world that shows the three associated pieces: the drawing, the die and the roll.

The roll is presented outside attached to the frame (as mentioned on title page)
